# ENVIRONMENTAL POLICY

Casco do Brasil Ltda., a world leader in the manufacture of cigarette lighters and power outlets, declares its commitment to the preservation of the environment. To achieve these goals, Casco commits itself to:

- Meet the environmental standards established by the legislation and regulations in the country, as well as procedures endorsed by the company relating to environmental management;
- To seek continual improvement in our environmental performance by monitoring our objectives and goals, and improving the Environmental Management System, giving special attention to the consumption of electricity;
- Maintain an Environmental Management System that ensures the prevention of pollution in its production process, reducing waste and consumption of resources, always processing recycling instead of disposal;
- Train and educate their employees and third parties that perform activities on behalf of practicing environmentally friendly activities;
- Encourages business partners to seek environmentally friendly practices.

This Environmental Policy is a commitment to Casco BRAZIL with stakeholders and will be available to the general public at the request of the EMS Coordinator, through one of the channels of external communication in the enterprise.
